“Solitude is dangerous. It’s very addictive. It becomes a habit after you realise how peaceful and calm it is. It’s like you don’t want to deal with people anymore because they drain your energy.”

[ONE TYPED PAGE](#)

It's simple really. A page of type. That's all it takes. If you've got a typewriter, you're a writer for One Typed Page. Even if it's not a whole page, write half a page, a quarter, a haiku perhaps, whatever it takes to get you working brain to finger to keys to slug striking paper making an imprint on paper.

[Sex in space](#)

The conditions governing sex in space (intercourse, conception and procreation while weightless) have become a necessary study due to plans for long-duration space missions. Issues include disrupted circadian rhythms, radiation, isolation, stress, and the physical act of intercourse in zero or minimal gravity.

[Bir Tawil](#)

(/bɪr tɑːˈwiːl/); Egyptian Arabic: بير طويل, romanized: Bīr Ṭawīl, lit. 'tall water well', [biːr tʰɑːˈwiːl]) is a 2,060 km² (795.4 sq mi) area of land along the border between Egypt and Sudan, which is uninhabited and claimed by neither country. When spoken of in association with the neighbouring Halaib Triangle, it is sometimes referred to as the Bir Tawil Triangle, despite the area's quadrilateral shape; the two "triangles" border at a quadripoint.
